

Study Abroad Course Approval Workflow for External and Exchange Programs

This flowchart represents the general process for course approvals. Please refer to your program's Dates and Deadlines document for your due dates.

External Program Students: Once approved to study abroad, apply to your program, begin the course approvals process, and submit your consortium agreement.

Exchange Program Students: Once nominated for your exchange, apply to your program and begin the course approvals process.

ALL: Make sure you have enough courses approved before you go. Semester students must take a full-time course load (the equivalent of at least 12 credits).
